Road Infrastructure Asset Management

Expert training by professionals, for professionals

**Online Training
July 12-22, 2021**

Online Training

Road Infrastructure Asset Management

July 12 - 22, 2021

Online Workshop

Background

This on-line training workshop will cover the principles, concepts, components, techniques and benefits of managing road infrastructure assets. The contents will be based on international practitioner handbooks as well as the hands-on experience of the course instructors. The workshop will teach the most relevant best practices as they relate to strategic asset management, tactical & technical asset management planning and operational asset management & service delivery.

The lectures will be taught over a two week period with live 2-hour on-line sessions held on Monday, Tuesday, Wednesday, and Thursday of each week. Upon completion of the training program, the IRF will administer an on-line knowledge test. Participants with a score of 80% of the exam will be awarded with a certificate verifying their successful completion of the course.

Why Online?

- Expert training by professionals for Professionals: access IRF's unique curriculum and lectures developed by world-class specialists
- Accelerated learning processes: get up to speed and gain new insights in less time and with no travel constraints
- Full access to learning materials and session recordings
- Small classrooms & scheduled One-on-One sessions between with instructors
- Self-paced options available
- Interactive group projects and case studies
- Receive IRF Certification

Learning Objectives

- ✓ Better understand each of the aspects of Strategic, Tactical and Operational Asset Management and their related functions
- ✓ Recognize the need to further develop asset management capacity and capability for their organization, and have methods to do so
- ✓ Understand the importance of 'aligning' asset management practices and approach to achieve organizational objectives
- ✓ Identify and develop appropriate delivery models for asset management and maintenance services that ensure optimum return on investment and excellent service delivery performance
- ✓ Understand how emerging infrastructure concerns, such as weather resilience, impact asset management functions
- ✓ Build and monitor financial plans for asset maintenance and renewal
