Safe Roads by Design: Making Roads Safe for All Users

April 12-30, 2021

Online Workshop

Background

The International Road Federation (IRF) On-line **Safe Roads by Design™: Making Roads Safe for all Users** certified training program is one of the most comprehensive on-line road safety training programs in the world. Experts in the field will present best practices and state of the art technologies in Roadside Safety, Work Zone Safety, Vulnerable User Safety, Traffic Management and Road Safety Audits over a three week period. The purpose of this training program is to help participants to understand what can be done to reduce the number of road crashes and the number of fatalities and serious injuries from road crashes that may still occur.

Upon completion of the training program, the IRF will administer a proctored on-line test. Participants with a score of 80% of the exam will be awarded with a certificate verifying their successful completion of the course.

Why Online?

- Expert training by professionals for Professionals: access IRF's unique curriculum and lectures developed by world-class specialists
- Accelerated learning processes: get up to speed and gain new insights in less time and with no travel constraints
- Full access to learning materials and session recordings
- Small classrooms & scheduled One-on One sessions between with instructors
- Self-paced options available
- Interactive group projects and case studies
- Receive IRF Certification (Safe Roads by Design™ Professional Credential - Practitioner Level)

Lead Instructor

Mike Dreznes

Dreznes has spent the last thirty-four years working to make the roads safe around the world. He is recognized as one of the world's leading specialists on roadside/median safety promoting the concept of "Forgiving Roads," and has conducted scores of road safety training seminars on roadside safety, work zone safety, vulnerable user safety and road safety audit in more than sixty countries around the world. Dreznes was the Co-Chairman of the Transportation Research Board (TRB) AFB20 (2) Roadside Safety

Subcommittee on International Research Activities from 2001-2019. He is the Co-Chairman of the United Nations Road Safety Collaboration (UNRSC) Decade of Action Pillar 2: Safer Roads and Mobility Project Group, and a member of the PIARC Road Safety Technical Committee 3.2 Design and Operation of Safer Road Infrastructure. In January 2015, Dreznes was named the winner of the TRB AFB20 Roadside Safety Design Committee Kenneth Stonex Lifetime Achievement Award.
