October 4-5, 2022

Conference

“Effective Road Charging Strategies in a Region on the Move”

Belgrade, Serbia
October 4-5, 2022

Background

The Balkan region is witnessing a rapid uptake in next-generation road charging programs, such as free-flow tolling for Heavy Goods Vehicles. The technologies supporting road charging systems have made tremendous progress over the past decade, and today developing and implementing a local or national solution presents fewer risks than was the case 10-15 years ago.

Nevertheless, delivering a successful road charging program frequently involves navigating through complex decisions, ranging from interoperability concerns to stakeholder engagement and cross-border enforcement, which road agencies are not always equipped to confront. Additionally, well-designed road charging programs can help achieve a number of different policy objectives, such as safer roads and more environmentally efficient road transport.

Seminar Themes

- Good practices in road charging & tolling design
- Key success factors in delivering road tolling projects
- Interoperability & cross border enforcement
- Working with tolling stakeholders
- Reaping the full benefits of road tolling programs

Target Audience

- Road and Transport Agencies
- Road Operators
- Tolling Agencies
- Research Institutes

Host Institution

Transport Community Permanent Secretariat
“Beogradjanka” building, Masarikova 5
11000 Belgrade, Republic of Serbia

Concept Schedule

October 4	14:00 Welcome – Opening Addresses What we Want to Achieve
	14:30 Policy & Regulatory Parameters supporting Road Charging Programs
	15:30 Developing interoperable Tolling Systems
	16:30 Case Study 1
October 5	08:30 Day 2 Overview
	08:45 Key Factors for Successful Introduction
	9:30 Back Office & Enforcement
	10:15 Case Study 2
	11:15 Tolling Value Chain & Business Partners
	13:00 Stakeholder Engagement Strategies
	13:45 Road Charging as a Strategic Tool supporting Sustainability
	14:45 Future of Road Charging in Europe
	15:30 Seminar Conclusion
